## Lemont Twp HSD 210 Lemont, ILLINOIS

State and federal laws require public school districts to release report cards to the public each year.
Starting in 2009, charter school information is included in district statistics.

Low-income students come from families receiving public aid; live in institutions for neglected or delinquent children; are supported in foster homes with public funds; or are eligible to receive free or reduced-price lunches.

Limited-English-proficient students are those students eligible for transitional bilingual programs. Mobility rate is based on the number of times students enroll in or leave a school during the school year. Chronic truants are students who are absent from school without valid cause for 18 or more of the last 180 school days.

The No Child Left Behind Act requires that information for certain data elements be disaggregated by high- and low-poverty schools. Poverty (low-income) is defined on page 1 of all report cards. High- and low-poverty schools include those in the top and bottom quarters of the poverty distribution of schools in the state. Disaggregated data are reported only if at least one school in your district falls within the high-poverty quarter and at least one school within the low-poverty quarter.

## SCHOOL DISTRICT FINANCES

** Due to the way Illinois school districts are configured, state averages for equalized assessed valuation per pupil and total school tax rate per $\$ 100$ are not provided. Equalized assessed valuation includes all computed property values upon which a district's local tax rate is calculated.
Total school tax rate is a district's total tax rate as it appears on local property tax bills.
Instructional expenditure per pupil includes the direct costs of teaching pupils or the interaction between teachers and pupils.
Operating expenditure per pupil includes the gross operating cost of a school district excluding summer school, adult education, bond principal retired, and capital expenditures.

## ACADEMIC PERFORMANCE

The number and percent of students taking the ACT are no longer reported since virtually every eleventh grade student takes the ACT as part of the PSAE.

* Includes graduating students' most recent ACT Assessment scores from an ACT national test date or PSAE testing. Excludes the scores of students who took the test with special accommodations. State averages for ACT data are based on regular public schools and do not include private and special purpose schools.

## 2007 NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS (NAEP)

NAEP is sponsored by the U.S. Department of Education and administered to students in grade 4, 8, and 12. Only grade 4 and 8 results are required to be reported.

Achievement levels reflect what students should know and be able to do. Based on recommendations from policymakers, educators, and members of the general public, the Governing Board for NAEP sets specific achievement levels for each subject area and grade. To provide a context for interpreting student performance, NAEP results are reported as percentages of students performing below the Basic level, at or above the Basic and Proficient levels, and at the Advanced level.

Basic denotes partial mastery of prerequisite knowledge and skills that are fundamental for proficient work at a given grade.
Proficient represents solid academic performance. Students reaching this level have demonstrated competency over challenging subject matter.

## Advanced represents superior performance.

The four achievement levels (below basic, basic, proficient, and advanced) are reported as level 1 through level 4, respectively. Please note that only state results are reported.

## OVERALL STUDENT PERFORMANCE

These charts present the overall percentages of state test scores categorized as meeting or exceeding the Illinois Learning Standards for your district and the state. They represent your district's performance in reading, mathematics, and science.

The 2007-08 school year was the first time that Limited English Proficient (LEP) students took the ISAT or PSAE (with accommodations) instead of the IMAGE test. Therefore, any comparisons with prior year's achievement levels for LEP students should be made with appropriate caution.

```

PSAE PERFORMANCE
```

These charts provide information on attainment of the Illinois Learning Standards. They show the average scores and also the percents of student scores meeting or exceeding Standards in reading, mathematics, and science on PSAE.

PSAE scores range from 120 to 200.

Number of students in this District with PSAE scores in 2009: 366

## PERFORMANCE ON STATE ASSESSMENTS

Federal law requires that student achievement results for reading, mathematics, and science for schools providing Title I services be reported to the general public.

The Illinois Standards Achievement Test (ISAT) is administered to students in grades 3 through 8. The Prairie State Achievement Examination (PSAE) is administered to students in grade 11. The Illinois Alternate Assessment (IAA) is administered to students with disabilities whose Individualized Education Programs (IEPs) indicate that participation in the ISAT or PSAE would not be appropriate.

Students with disabilities have an IEP (No Child Left Behind Act). An IEP is a written plan for a child with a disability who is eligible to receive special education services under the Individuals with Disabilities Education Act.

Reading and Mathematics are tested in grades 3 through 8, and 11 . Science is tested in grades 4, 7 , and 11.
In order to protect students' identities, test data for groups of fewer than ten students are not reported.

## PRAIRIE STATE ACHIEVEMENT EXAMINATION (PSAE)

The following tables show the percentages of student scores in each of four performance levels. These levels were established with the help of lllinois educators who teach the grade levels and learning areas tested. Due to rounding, the sum of the percentages in the four performance levels may not always equal 100.

Four Conditions Are Required For Making Adequate Yearly Progress (AYP):

1. At least $95 \%$ tested in reading and mathematics for every student group. If the current year participation rate is less than $95 \%$, this condition may be met if the average of the current and preceding year rates is at least $95 \%$, or if the average of the current and two preceding years is at least $95 \%$. Only actual participation rates are printed. If the participation rate printed is less than $95 \%$ and yet this school makes AYP, it means that the $95 \%$ condition was met by averaging.
2. At least $70.0 \%$ meeting/exceeding standards in reading and mathematics for every group. For any group with less than $70.0 \%$ meeting/exceeding standards, a $95 \%$ confidence interval was applied. Subgroups may meet this condition through Safe Harbor provisions..**
3. For schools not making AYP solely because the IEP group fails to have $70.0 \%$ meeting/exceeding standards, $14 \%$ may be added to this variable in accordance with the federal $2 \%$ flexibility provision.
4. At least $90 \%$ attendance rate for non-high schools and at least $78 \%$ graduation rate for high schools.

* Includes only students enrolled as of 05/01/2008.
** Safe Harbor Targets of $70.0 \%$ or above are not printed.
***Subgroups with fewer than 45 students are not reported. Safe Harbor only applies to subgroups of 45 or more. In order for Safe Harbor to apply, a subgroup must decrease by $10 \%$ the percentage of scores that did not meet standards from the previous year plus meet the other indicators (attendance rate for non-high schools and graduation rate for high schools) for the subgroup. For subgroups that do not meet their Safe Harbor Targets, a $75 \%$ confidence interval is applied. Safe Harbor allows schools an alternate method to meet subgroup minimum targets on achievement.

## SCHOOL IMPROVEMENT PLAN

In keeping with the improving academic trend that has been evident at Lemont High School in recent years, the school is proud that the 2009 Illinois State Report Card will include the best ACT and PSAE scores in its history, and that class failures are at the lowest level in school history. These accomplishments are indicative of the dedication of the school's faculty, and, more importantly, the commitment of its students.

The "mean" score of the PSAE, which was administered to the Class of 2010 in Spring 2009, represents improvement in achievement for all Lemont High School students, ranging from those who regularly excel to those who often struggle, as well as those students in between. Lemont High School is not only proud to have made Adequate Yearly Progress for the sixth time in as many years, but also that its percentage of students meeting or exceeding standards on the PSAE grew from 69.1 percent on the 2008 State Report Card to 73.8 percent this year.

The Class of 2009's performance on the ACT score is not only the school's best ever, but also represents an improvement of nearly a full point from the previous year. Our most recent graduates posted an average composite score of 22.4 on the ACT, compared to a 21.5 average for the preceding class. That in itself is impressive, but even more so is the fact that the Class of 2009's average scores in all of the ACT components - English (22.5), Mathematics (22.3), Reading (22.4) and Science (21.9) - also represented all-time school bests.

The school is achieving one of its primary goals, with more of its students recording a score of at least 18 on the ACT, and in turn being eligible to attend a four-year Illinois college or university, than at any time in its history.

With all of these successes in mind, Lemont High School is still striving to improve. The Learning Initiative, which commenced in 2008, will continue, with the ultimate goal of further understanding exactly how the brain works to help students learn. Instructional methods and curricula will be designed to reflect the knowledge gained from those efforts. Additionally, the school's faculty will begin work, at the committee level, to examine grading practices. The committee's ultimate goal will be to determine the best grading practices, which, in turn, will best serve Lemont High School students and improve both their academic experience and their level of achievement.

At Lemont High School, the success of each student is important. Its mission continues to be for all students to become life-long, independent learners and productive citizens in a rapidly changing world.
